

Centre for ADHD & Autism Support Brent Youth and Family Services

CAAS have recently been commissioned to provide a pilot project for two days per week in Brent. We will be offering:

- 1:1 support for parents / carers
- Our two specialist ADHD/autism parenting courses
- 1:1 support for young people in High School

As part of this we will be working in collaboration with BOAT's STAAR Project.

In order to avoid duplication, CAAS will primarily support those with ADHD, as well as autistic young people who are in High School, and their families.

Families must be registered with a Brent GP and have a diagnosis / be on the assessment pathway for a diagnosis of ADHD or autism.
