# Coloured Celery

Science Experiment

Method

1. Pour some water into the glass.

2. Add a few drops of food colouring to the water and stir to distribute the colour.

3. Cut 2cm off the bottom of the celery stalk and put the stalk into the glass of coloured water.

4. Leave the glass and celery in a sunny spot for a couple of hours or overnight.

5. Observe the results.

You will need:

Celery stalk with leaves

Tall glass

Water

Food colouring

Scissors
