

Next half-term our topic is called 'How do things change as they grow?' We will be looking a lots of different types of growing from babies to butterflies! You can help your child by doing some of the activities below.

Activity 1

Look at old photos with your child. Talk about how they have changed over the years. What can they do now that they couldn't when they were younger?

Activity 2

Plant some seeds and see how they grow and change. You could plant flower seeds in the garden or in pots.

Activity 4

Counting objects

Count objects such as toys, fruit or cars with your child. Make counting a everyday activity you do with your child. There are so things you could count!

Remember

The nursery children need a school bookbag to take home a library book every **Thursday**.

It's half-term next week so we'll see you on Monday 19th February.
