

Partition Numbers to 1,000,000

1a. Complete the bar models using standard partitioning.

VF

1b. Complete the bar models using standard partitioning.

VF

2a. Complete the part-whole models.

VF

2b. Complete the part-whole models.

VF

3a. Draw counters on the place value chart using non-standard partitioning to help you calculate $424,329 - 800$.

HTh	TTh	Th	H	T	O

VF

3b. Draw counters on the place value chart using non-standard partitioning to help you calculate $349,249 - 70,000$.

HTh	TTh	Th	H	T	O

VF

Partition Numbers to 1,000,000

3a. $424,329 - 800 = 423,529$

3b. $349,249 - 70,000 = 279,249$
